

**NEW**

# e-Temp™

## Hydraulic Temporary Restorative Material

Order through your local dental dealer | Item #2004-1001 (30g white)

### Indications

- ★ Temporary restorations - especially inlay restorations
- ★ Temporary filling and sealing
- ★ Temporary filling of implant sites

### Features

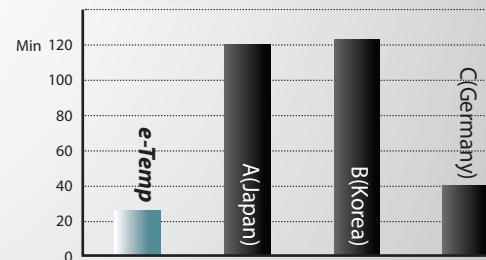

- ★ Adheres to dentin, expands slightly during setting and hardens rapidly to ensure hermetical seal
- ★ Improved mechanical properties for quick temporary filling
- ★ Moisture-activated: sets within 25 minutes or less
- ★ Contains zinc oxide and calcium sulfate
- ★ Excellent adaptability
- ★ Easy to remove
